4	Fill out all inputs then press "create"	Navigate to "kendaraans" page and show new "kendaraan" that already created before	Navigate to "kendaraans" page and show new "kendaraan" that already created before	Pass

- Scenario 2
  Task: Read Kendaaraan

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "kendaraan" on navigation menu	Navigate to "kendaraans" page, show list "kendaraans"	Navigate to "kendaraans" page, show list "kendaraans"	Pass

- Scenario 3
  Task: Show Kendaraan

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "kendaraan" on navigation menu	Navigate to "kendaraans" page, show list "kendaraans"	Navigate to "kendaraans" page, show list "kendaraans"	Pass
2	Press "show" button	Show "detail kendaraan"	Show "detail kendaraan"	Pass

- Scenario 4
  Task: Edit Kendaraan

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "kendaraan" on navigation menu	Navigate to "kendaraans" page, show list "kendaraans"	Navigate to "kendaraans" page, show list "kendaraans"	Pass
2	Press "edit" button	Show "edit kendaraan" form with all old values	Show "edit kendaraan" form with all old values	Pass
3	Press "edit" button without fill out any inputs	Navigate to "kendaraans" page without any changes	Navigate to "kendaraans" page without any changes	Pass

Step	Action Flow	Expected Result	Actual Result	Test Result
4	Fill out any inputs then press "edit"	Navigate to "kendaraans" page and show updated "kendaraan" that already updated before	Navigate to "kendaraans" page and show updated "kendaraan" that already updated before	Pass

- Scenario 5
  Task: Delete Kendaraan

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "kendaraan" on navigation menu	Navigate to "kendaraans" page, show list "kendaraans"	Navigate to "kendaraans" page, show list "kendaraans"	Pass
2	Press "delete" button	Remove selected "kendaraan" from view and database	Remove selected "kendaraan" from view and database	Pass

- Scenario 6
  Task: Create Customer

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "customer" on navigation menu	Navigate to "customers" page	Navigate to "customers" page	Pass
2	Press "tambah customer" button	Show "create customer" form	Show "create customer" form	Pass
3	Press "create" button without fill out any inputs	Show error "Please fill out this field"	Show error "Please fill out this field"	Pass
4	Fill out all inputs then press "create"	Navigate to "customers" page and show new "customer" that already created before	Navigate to "customers" page and show new "customer" that already created before	Pass

- Scenario 7
  Task: Read Customer

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "customer" on navigation menu	Navigate to "customers" page, show list "customers"	Navigate to "customers" page, show list "customers"	Pass

- Scenario 8
  Task: Edit Customer

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "customer" on navigation menu	Navigate to "customers" page, show list "customers"	Navigate to "customers" page, show list "customers"	Pass

	2	Press "edit" button	Show "edit customer" form with all old values	Show "edit customer" form with all old values	Pass
	3	Press "edit" button without fill out any inputs	Navigate to "customers" page without any changes	Navigate to "customers" page without any changes	Pass
	4	Fill out any inputs then press "edit"	Navigate to "customers" page and show updated "customer" that already updated before	Navigate to "customers" page and show updated "customer" that already updated before	Pass

- Scenario 9
  Task: Delete Customer

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "customer" on navigation menu	Navigate to "customers" page, show list "customers"	Navigate to "customers" page, show list "customers"	Pass
2	Press "delete" button	Remove selected "customer" from view and database	Remove selected "customer" from view and database	Pass

- Scenario 10
  Task: Create Order

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "order" on navigation menu	Navigate to "orders" page	Navigate to "orders" page	Pass
2	Press "tambah order" button	Show "create order" form	Show "create order" form	Pass
3	Press "create" button without fill out any inputs	Show error "Please fill out this field"	Show error "Please fill out this field"	Pass
3	Fill out "model kendaraan" and "jumlah pesanan" inputs	"Total harga" will calculate itself realtime	"Total harga" will calculate itself realtime	Pass
4	Fill out all inputs then press "create"	Navigate to "orders" page and show new "order" that already created before	Navigate to "orders" page and show new "order" that already created before	Pass

- Scenario 11
  Task: Read Order

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "order" on navigation menu	Navigate to "orders" page, show list "orders"	Navigate to "orders" page, show list "orders"	Pass

- Scenario 12
  Task: Edit Order

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "order" on navigation menu	Navigate to "orders" page, show list "orders"	Navigate to "orders" page, show list "orders"	Pass
2	Press "edit" button	Show "edit order" form with all old values	Show "edit order" form with all old values	Pass
3	Press "edit" button without fill out any inputs	Navigate to "orders" page without any changes	Navigate to "orders" page without any changes	Pass
4	Change "model kendaraan" value via dropdown	"Total harga" will calculate itself realtime	"Total harga" will calculate itself realtime	Pass
5	Change "jumlah pesanan" input	"Total harga" will calculate itself realtime	"Total harga" will calculate itself realtime	Pass
6	Fill out any inputs then press "edit"	Navigate to "orders" page and show updated "order" that already updated before	Navigate to "orders" page and show updated "order" that already updated before	Pass

- Scenario 13
  Task: Delete Order

Step	Action Flow	Expected Result	Actual Result	Test Result
1	Press "order" on navigation menu	Navigate to "orders" page, show list "orders"	Navigate to "orders" page, show list "orders"	Pass
2	Press "delete" button	Remove selected "order" from view and database	Remove selected "order" from view and database	Pass
